Dynamic Risk Assessment Checklist

TeamTeach

Ask yourself...

- What do I know about this individual?
- What has worked well in the past?
- What hasn't worked well?
- What is likely to happen next?
- What are the risks of doing something compared to not doing something?
- What is in the best interests of the individual?

Now decide...

I need to do something

- Am I the right person for this?
- Do I need any support?
- How can I reduce risk for everyone?
- What is the least restrictive option that will achieve the desired outcome?

I should watch & wait

- What changes do I notice?
- Is the level of risk increasing?
- Who should know about this?
- What might happen next?
- Do I need to do something?
